Chico High Advanced Placement Changes and Information

The College Board has moved their payment deadline to the fall and are requiring fall registration for all tests. Students are registered electronically and must pay their $94 fees by Friday, Oct. 4. The late registration fee is $110, and the final deadline is Friday, Oct. 18. All payments are made at the Panther Post. Fee waivers are available for families who meet the income guidelines, and payment plans are available for any student.

For more information from the College Board, please visit: apcentral.collegeboard.org

For more information about fee waivers and payment plans please direct your students to speak with Ms. Pasillas in the main office.

More students earn college credit and placement when they register in the fall

Fall exam registration improves students’ chances of success. It’s already a best practice at more than half of schools offering AP.

We’ve seen the benefits of fall registration in our pilot program

Scores of 3+ increased across student groups

In the 2017-18 school year, we piloted fall exam registration with 40,000 students. We saw an increase in scores of 3 or higher across multiple groups. Moving the time of registration made a difference across the board, but it had the strongest effect for students who are traditionally underrepresented in AP.

We tested these changes with nearly 1,000 schools

Schools that implemented fall registration see higher participation and better scores, especially in schools where fewer AP students typically take exams.

How We Came Up with These Changes

1. We were inspired by you

More than half of all AP schools offer some form of fall registration. In those schools, students are more engaged and less likely to give up—meaning they are more likely to earn a score that will translate to college credit.

2. We worked with you

The new resources and processes were designed in response to your feedback, and in collaboration with AP teachers and coordinators.

3. We tested these changes with nearly 1,000 schools

Schools that implemented fall registration see higher participation and better scores, especially in schools where fewer AP students typically take exams.
